Dear Sir it May not have been the man  
by name of Hough or Hough it was on  
his farm What we want to know is was there  
ever any part from Fayette County Washington  
Township, from a little town called  
Cookstown, it might have been between 50  
and 65 years ago. We think we have the right  
place and if we can find this old Abby we  
are all right and we hope you will pardon us  
for the trouble we are giving you.

If this is a lucky strike you will not lose  
anything for your kindness  
or it might have been sent from some other town  
in Fayette County Pa for a blind we hope you  
will give this your careful consideration and  
we will ever pray your answer,

Yours Respectfully
